ba.zaar
a flea market with a

twist

what, how, who and where is

It's a place **where you can bring family and friends**, shop, take art classes with one of our very own artists and eat or snack on **the best Mexican Cuisine in town!** We are a pet-friendly establishment; so bring your pets for accessories and fresh baked organic treats.

Le Chic Bazaar is where local artists gather to create **master pieces**. We promote local businesses, family fun, and one-of-kind handcrafted products and artwork. As a bonus, we have created various events to learn, get educated, have fun, and even offer customers new, easy and fun ways to make money **RIGHT FROM HOME!** Visit our website for more info.

With a wide variety and diversity in products, it is easy to find exactly what you are looking for. **EVEN WHEN YOU DON'T KNOW WHAT IT IS YOU ARE LOOKING FOR!!!**

Join our **Grand Opening Celebration this Saturday 12th of September** and discover why Le Chic Bazaar is a boutique shopping experience.

100 ways to use Skin So Soft Bath Oil

PERSONAL HYGIENE

1. Bath Oil and after shower moisturizer
2. Eye makeup remover
3. Massage oil
4. Mild insect repellent
5. Relieves itchy skin due to dryness
6. Cleans off tape marks left on skin from bandages
7. Cleans ink off skin
8. Cleans grease and oil off skin
9. Removes paint from hands (better than turpentine)

10. Soothes light sunburn
11. Pour a little into your Feet Soaker, helps feet relax
12. Removes chewing gum from hair, skin and most non-porous surfaces
13. Original Scent works GREAT on Head Lice! Saturate head and keep it on for 15

minutes. These rinse under an OUTDOOR faucet. LICE ARE GONE! You will need to wash the hair a number of times to remove the oiliness, but lice are gone!

To say that I'm an artist would be disrespectful to all those who, in addition to having great talent, studied arduously to become memorable. My work is more about instinct. It is about the passion to express myself through colors and textures; it is the drive to approach that space, very much a part of me, that would let me unload and reload. That is why I paint: to entertain myself, as well

as to alleviate my anxieties and ameliorate my pains. But also, to celebrate my happiness. While my collection grew so did the interest of my friends, neighbors and passersby. Some of them have already begun

their own La López collections by purchasing my work. Their response has surprised me because I never thought that my work would awaken others' interest. I am grateful that it is.

And so, I humbly present to you my "babies". Each and everyone of them has a special meaning to me, they hold an incalculable value. Hence, it is an honor and a privilege to have you open your home to them.

I hope you enjoy the pieces I present. Let them transport you, as well as inspire and provoke your emotions the way they did me while I created them.

taking care of your shoes

1. Polish your leather shoes regularly to preserve moisture and maintain shine.
2. If the heels of your shoes are worn down or cracked take them to a cobbler to see if they can be fixed.
3. Waterproof suede and Nubuck shoes and use a soft bristled brush to lightly lift away dirt.
4. Fabric or canvas shoes can often be cleaned by hand or machine washing. Fill them with crumpled newspaper after washing to maintain their shape while drying.
5. Rotate your shoes by wearing a different pair every other day. This will help your shoes last longer and wear less.
6. Constant rubbing against your skin can cause uneven wear of your shoes. Try changing the thickness of your socks until you find a pair that keeps the shoes from rubbing you the wrong way.
7. Clean your shoes as soon as you notice they are dirty. Use a dry cloth and rub away the dirt.
8. Flex your shoes occasionally. If they flex in half below the shoe box they must be replaced.

a sand paper for every job
by La López

It can be confusing, but is so simple. As higher the number, as softer the grit, and you will probably only use a small handful:

#50-#30: Very Coarse Grit - Rips off peeling paint with ease, and can damage your project as easy as well.. Not recommending for fine pieces such as trim or furniture.

#80-#60: Medium Grit - Most common grades of sandpaper. It's hard to go wrong in this range of paper. Difficult material? Apply more elbow grease. Fine materials? apply less pressure.

#180-#100: Fine - Not to be used in the first round of sanding. Grits in this range shall be used for second or third sanding. Sometimes, fine grit sandpaper is used to "roughen" down glossy paint in preparation for applying another coat of paint.

#500 and above—Remember, as higher the number, as softer the grid. Use a higher grit in between your last coats of paint or after sealed with polyurethane for a smooth surface. I personally use above #1000 for my last sanding. And always sand in the same direction than the wood grain.

Consult with an expert before any job. Give it a try in a small area first. Don't forget to use the necessary safety equipment to protect yourself.

Is you have any question you can contact me at sara@lalopez.com. For our Art Classes or Painting Parties visit www.lechicbazaar.com

Fresh Ix'ni Pec Salsa

Raw Food Recipe

This Mayan zesty salsa is filled with nutrients, minerals, and antioxidants — is enjoyed for its fresh crispy texture, aroma, and flavor.

Its nutritional value depends entirely on the freshness and quality of your produce choices, so buy the best

organic and vine-ripened ingredients. This salsa enhances most meats, fish, and poultry grilled dishes. It can be enjoyed as a topping over fried tortilla chips or guacamole dip

Ingredients:

- 1 tablespoon of homemade vinegar
- (market brands work well, use white vinegar only)
- One ripe organic lime (juice)
- One small organic red onion peeled and chopped
- Three large organic red tomatoes (vine-

ripened tomatoes are best)

- 1/4 cup of chopped organic cilantro leaves (wash leaves with care!)
- One small ripe Habanero Chile (cut amount for mild salsa)
- Pinch of crushed sea salt

How to Prepare:

Place in a clay bowl (glass will do) all ingredients, mix gently, let stand for 10 minutes to blend flavors. Serve at room temperature as a snack topping or to dress up your grilled meats, fish, or poultry.

Should you not find Habanero Chile in your area, use fresh serrano or Jalapeño Chile as a substitute.

This salsa stays truly fresh for up to 3 hours. We do not recommend that you refrigerated any leftover salsa because fresh tomatoes tend to ferment easily.

guidelines to consider when wearing

Jewelry is worn by millions of people every day, but few recognize how they can preserve their treasures by using some simple advanced planning and thought.

•Remove Jewelry During Tasks – When performing manual tasks, remove your jewelry to prevent physical damage or exposure to chemicals or cleaning fluids. Some tasks that should be avoided when wearing jewelry include kitchen work, gardening, cleaning the house and other common tasks.

•Put Jewelry On After Applying Makeup – Cosmetics, hairspray, per-

fumes and lotion can contain chemicals that can often damage jewelry. Putting jewelry on after applying these materials will limit exposure to jewelry and any potential damage.

•Don't Wear Jewelry In Swimming Pools and Spas – Chlorinated water can react with the metals found in jewelry causing color changes and even structural damage. As a result it's a good idea to remove jewelry before entering the pool or spa.

•Contact Sports and Jewelry Don't Mix– Hard blows during sports can damage jewelry not to mention the people involved. All jewelry should be removed before play.
